HARTMAN'S ROUNDUP
By Sid Hartman

Tanner Calls Reichardt Next Mickey Mantle

CHUCK TANNER, who was a member of the Minneapolis Millers in 1959, is Kirk Reichardt's manager at Quad Cities and it's Tanner's opinion that the former Wisconsin baseball and football star could be the next Mickey Mantle.

"Reichardt is hitting .361 and he is such an exciting player that we recently drew a record 16,500 for five games," said Tanner.

"He has a quicker bat than 80 per cent of the major league players. The amazing thing to me is that this boy hadn't had a bat in his hand since May 25 when he joined us recently. But he started out like a veteran.

"The other night one of our boys hit a blooper over first base that rolled into the bullpen in short right field. Reichardt was on first base and scored on the play. I've never seen a faster man in a baseball uniform. He is playing center field for us and covers the entire outfield.

"This boy has more power than General Electric.

"Reichardt won't be with us long. He will go to Hawaii in the near future and then to the big club (Los Angeles Angels) for good," said Tanner about the boy who received a reported $200,000 bonus.

Skowron Deal: It was in the lobby of the Roosevelt Hotel in New York, N.Y., last week when Washington general manager George Selkirk and Al Lopez, manager of the Chicago White Sox, started to talk about a deal for Bill Skowron, who Monday went to the White Sox.

"I can't make a deal with your general manager," Selkirk told Lopez. "He offers me kids like pitcher Rudy May, whom I never heard of, for a fellow like Skowron.

"All right," said Lopez, "tell me what you want. If we can afford to give it up, we'll make the deal."

In a later conversation the name of Joe Cunningham of the White Sox came up.

So yesterday the deal was made and first baseman Skowron goes to his native city of Chicago and gets a chance to play in Comiskey Park, where he has always hit well.

Viking Story: Minnesota Viking coach Norm Van Brocklin is anxious to take a good look at guard Dave O'Brien of Boston College, who was with the Vikings last year, and Jim O'Mahoney of Miami, who was on the taxi squad last year.

"O'Brien is a tough boy who has all the ability and needs only to mature to be a good pro," said Van Brocklin.

"We never got a good chance to test O'Mahoney last year because he injured his ankle early in the practice season. This boy could be a real good linebacker."

Van Brocklin likes the physical look of former Gopher end Bob Deegan, who will get a try as a linebacker in the Bemidji camp.

"He walked into my office and you would have thought the first draft choice in the National League had walked in. He's a real good looking athlete," said Van.

Van Brocklin said it takes the coaches about three days Cubs' Pioneer League team. to find out what the rookies and free agents can do.

"Your first impressions normally don't change," said the Viking coach.

Star Gophers: Les Bolstad, Minnesota golf coach, has three probable members of his 1965 golf team playing in the National Publinx.

Bob Petersen, who set a University course record of 65 for a competitive meet during the "M" club tournament, shot a 79 yesterday. Petersen will be back with the Gophers after missing a year.

Brian Field, a freshman from St. Louis Park, tied for fourth place with 71 and one stroke back was another member of the 'U' freshman team. Jim Carlson, now of Hopkins.

Boutell Here: George Boutell, son of former local golfing star Bud Boutell, is here to take some lessons from Bolstad.

"Two years ago Bolstad gave me a lesson and I finished eighth in the Keller Open," said young Boutell, who has transferred from the University of Arizona to Arizona State.

"Last year I paid Les a visit and right after that I won the Western Junior in Columbus," said Boutell, who also won the Phoenix City Open last year.

Boutell says he plans to play in the Keller Open and also the Birchmont Open while visiting here.

Jottings: Gary Lovemark, former Robbinsdale basketball star who was a freshman at Minnesota last fall, is likely to wind up at Drake or South Dakota State. He's undecided.

Shirley Korhlick, University of Minnesota ticket manager, reports that, through July 7, 5,025 football season tickets have been sold, as compared to 5,569 a year ago at the same time. This is 94.5 per cent of our sale to date," said Shirley. "If we stay this close, we won't worry too much."

Dave Markus, the sparkplug of the Minneapolis Millers in 1959, is Kirk Reichardt's manager at Quad Cities and it's Tanner's opinion that the former Wisconsin baseball and football star could be the next Mickey Mantle.

Causey Stars as A's Split With Chisox

KANSAS CITY, Mo. — (AP) — Chicago and Kansas City split a doubleheader slugfest Monday. The White Sox winning the opener 8-6 with a 16-hit attack before the Athletics took the nightcap 8-7, as Wayne Causey smacked a bases-loaded single in the ninth inning that ended an eight-hour battle.

The A's, snapping a six-game losing streak, came up with the decisive run in the nightcap when Dick Green singled and raced to third on Ken Harrelson's double. Nelson Mathews was given an intentional walk before Causey singled in the decisive run.

Causey had tied the score 6-6 in the seventh inning with a disputed three-run homer that led to the ejection of White Sox manager Al Lopez.

Causey's homer cleared the low fence in right field near the bleacher section. An orange pole marks where the low fence ends and the higher fence begins. The White Sox claimed the ball hit on the center field side of the marker and was still in play.

In the opener, White Sox starter Gary Peters hit a three-run homer and Pete Ward collected three singles in four trips to the plate.

They Say:

Mickey Mantle, Yankee outfielder: "Harmon Killebrew has improved a great deal as a hitter. Whitey Ford (Yankee pitcher) was telling me the other day that he used to be able to get Harmon out on those outside pitches. But Harmon seems to have learned a lot in the last couple of years. I think he is a real threat for the home run record."

George Boutell: My dad (Bill) is a nine handicap golfer and still plays in tournaments around Phoenix."

Oliva Allison

Oliva Regains AL Bat Lead From Allison

NEW YORK, N.Y. — (AP) — Tony Oliva of the Minnesota Twins has regained the American League batting lead from teammate Bob Allison.

Oliva, in second place last week, packed up one point to .336. Allison slumped 10 points — on 3-for-18 — and tumbled into third place with a .326 average.

Mickey Mantle of the New York Yankees moved into second place despite a two-point dip to .330. Mantle went 3-for-10. The figures include Sunday's game.

Harmon Killebrew of the Twins retained the top spot in home runs with 31 and runs batted in with 66, although he managed only one homer and two RBI last week.

Pittsburgh's Roberto Clemente continued to hold first place in the National League batting race. He lifted his average three points to .346 with six safeties in 14 trips.

Billy Williams of the Chicago Cubs climbed one notch to second. He hit .500 last week, on 13-for-26, gaining 14 points to .344.

Willie Mays dropped to third at .338 with 8-for-25 although he walloped four homers and drove in eight runs.

Mays still leads in home runs with 27 and RBI with 63.

Orlando Cepeda went 11-for-24 to climb into a fourth-place tie with Milwaukee's Joe Torre at .318. Cepeda batted 458 last week to hike his average 18 points.

Tigers Tip Orioles on Lumpe Hit in 10th

DETROIT, Mich. — (AP) — Jerry Lumpe's bases-loaded single with one out in the bottom of the 10th inning scored Gates Brown with the run that gave Detroit a 4-3 victory over league-leading Baltimore Monday.

The Tigers, behind Dave Wickersham, appeared to have won in regulation time, but Brooks Robinson homered with a man on base in the ninth to force the game into extra innings.

Dick McAuliffe ignited the winning rally with a leadoff single off relief pitcher Dick Hall. Brown doubled and Don Demeter was purposely passed to load the bases.

Lefty Harvey Haddix replaced Hall and got pinch-hitter Al Kaline to hit into a force play, but Lumpe came through with his game-ending hit to right field.

One of the Orioles hits was a pinch single by Bob Johnson in the eighth inning. It was his fifth straight hit as a pinch-hitter, tying the American League record shared by Johnny Mize, Bob Hale and Vic Wertz. Dave Philley holds the major league record of eight straight pinch hits.

Cubs Batter Dodgers 10-4

CHICAGO, Ill. — (AP) — A five-run uprising capped by Andre Rodgers' three-run homer after two were out in the sixth inning carried the Chicago Cubs to a 10-4 victory over the Los Angeles Dodgers Monday.

Don Drysdale, an 11-game winner, was victimized by the upsurge and suffered his eighth loss.

The Cubs carried a 2-1 lead into the sixth. Drysdale retired the first two batters and then yielded singles to Ron Santo, Ernie Banks, Len Gabrielsen and Dick Bertell before Rodgers hammered his sixth homer into the left field bleachers.

Chicago added three more at the expense of ex-Cub Jim Brewer in the eighth.

Casadont Takes Post at Sturgeon Bay High

STURGEON BAY, Wis. — (UPI) — Ronald R. Casadont of Barnum, Minn., Monday was named head football coach and athletic director at Sturgeon Bay High School.

Casadont spent the past eight years coaching at Barnum High School, where he had a record of 40 wins and five losses. He succeeds Mack Uhl, who resigned.

Giants Prevail Over Colts 5-3

HOUSTON, Tex. — (AP) — Orlando Cepeda exacerbated by in the ninth inning, following a disputed play at second base, drove in the tie-breaking run as the National League leading San Francisco Giants edged Houston 5-3 Monday night.

The victory kept the Giants' lead at one game over the Philadelphia Phillies, who defeated Milwaukee 3-2.

Aeronautical, structural, civil and mechanical engineers:
Build your career at Boeing
The Boeing Company is pioneering evolutionary advances in the design of civilian and military aircraft. Immediate openings exist for graduate engineers at all experience levels with B.S. or M.S. degrees in aeronautical, civil, mechanical or applied mechanics. Assignments are in the following areas:
LOADS Responsibilities involve the development of airplane structural criteria and loads, including determination of static and dynamic loads under flight and ground environments.
STRESS ANALYSIS Positions involve structural optimization studies on new aircraft programs. Activities include stress analysis relative to load and thermal effects, structural arrangement studies, integration of materials and environmental requirements, and design of fail safe and fatigue resistant components.
WEIGHTS Preliminary design responsibilities include analyses and weight trade studies on future military and commercial aircraft.
FLUTTER Assignments include both theoretical and experimental flutter investigations on aircraft operating throughout the subsonic and supersonic regimes. Digital and analog computers as well as subsonic to hypersonic wind tunnels are available as working tools to the aeroelastic engineer.
MATERIALS Openings in new product materials technology exist in metallurgy, welding, protection finishes, and aircraft lubrication materials. Metallurgical or chemical engineering degrees required.
PROPULSION RESEARCH Positions for mechanical and aeronautical engineers involve research and development in the fields of subsonic and supersonic inlets, throttling ejectors and engine-fan thrust vectoring, primarily J-X10 powered engine cycle analysis, engine-airplane optimization studies for subsonic and supersonic propulsion systems, and VTOL propulsive technology.
PERFORMANCE AND STABILITY AND CONTROL ANALYSES Assignments for aeronautical engineers involve performance analysis associated with wind tunnel testing, including preparation of presentations, operating instructions and preliminary design work in connection with new aircraft. The ability and control assignments include wing and tail design, as well as studies concerning delayed control systems.
PLASTICS AND ADHESIVES Openings require experience in reinforced plastics, adhesive bonding, sandwich construction, thermoplastics, textiles and resin technology.
PROTECTIVE FINISHES Positions require experience in inorganic protective finishes and corrosion control; must be familiar with electrochemical conversion coatings, surface preparation and corrosion testing methods.
METALLURGY Assignments involve evaluation, development and application of materials and processes to airframe design and cover metallurgy, welding, mechanical fasteners, fluid systems, bearings and metal working. Responsibilities include consultation with designers, vendors and subcontractors on the selection of materials and processes.
These assignments provide ground-floor opportunities in challenging new programs. You'll be working in a dynamic career environment that's conducive to rapid advancement, backed by unexcelled family benefits that include the largest, most advanced wind tunnel installation in private industry.
Salaries are competitively commensurate with your education and experience background; minimum requirement is a B.S. degree in an applicable discipline. Travel and moving allowances are paid to newly hired personnel. Boeing is an equal opportunity employer.
Boeing's Airplane Division is located near Seattle in the unexcelled Pacific Northwest, noted for year-round mild climate, nationally famous recreational facilities, excellent schools and housing, and healthful outdoor Western living for the whole family.
Take a moment now to learn about your career opportunity at Boeing.
